Attachments: Draft - Geoscience Appendix Oct 25 2013_bs.docx; ATT00001.htm

Nancy

I have now read through the materials you sent. Rather than give you a detailed review, I simply made some suggested edits which are highlighted in the attached word file. I left tracking on so you can see my suggestions. In some cases I added some notes or questions.

These are only suggestions for you and your groups consideration.

If you have questions, feel free to give me a call.

Best Regards,

Brian
